**B.** Handicapped Ramp

1. Ramp replacement versus elevette/ elevator. Both Monty and DebraRay reviewed the history of current ramp and committee of a couple years ago. Sixteen boards are broken or missing; Monty has budgeted about \$35,000.00 for repair or replacement of ramp. After discussion by the committee members the current ramp is not up to code. The committee decided to look into replacing the ramp with the elevette as it takes less space than both the ramp and elevator that means conserving the already limited parking space. Per Monty the elevette can be moved if needed at a later date. Monty will get new estimates from elevate companies.
